

To whom it may concern,

First Quantum Minerals, Ltd. would like to invite geology students from University of Latvia to apply to the bi-annual conference SGA 2023 (<https://sga2023.ch/>) in ETH Zurich, Switzerland from 28th of August till 1st of September this year. The SGA is one of the major conferences dedicated to the geology of ore deposits, and attendance is a valuable opportunity to learn from world class experts in the field and interact with your international student peers.

If you are recently- or nearly finished your Bachelors or Masters in a geoscience field and are interested in this opportunity, please send your CV and a short cover letter explaining why you'd like to attend by March 20th, 2023 to aleksis.vigdorcikis@fqml.com. Sponsorships will be awarded before the end of March.

The successful applicants will receive a sponsorship worth €600 that must cover your SGA membership and conference registration, and the remainder is a contribution toward your travel, accommodation and trip expenses. You would be responsible for making your own arrangements.

First Quantum Minerals Ltd. (www.first-quantum.com) is a Canadian based mining company that is one of the world's leading copper producers operating mines in Africa, Central America, Eurasia and Australia. With over 20,000 employees worldwide the company is always looking to recruit motivated and talented young scientists to join our international geoscience teams.
